Linkedin Github Portfolio

Professional Summary

Result-oriented **MERN Stack Developer** specializing in robust backend architecture, scalable database design, and modern cloud ecosystems. Adept at engineering secure RESTful APIs using **Node.js, Express, MongoDB, and Supabase**, alongside seamless user authentication flows via **JWT and custom middleware**. Experienced in building responsive, user-centric frontends with **React.js**. Proficient in utilizing **Git** for efficient version control and team collaboration. Committed to delivering clean code, optimizing performance, and continuously integrating modern web technologies into the development lifecycle.

Experience

Full Stack Developer Intern, KrishLabs 04/2026 – Present
Bangalore, India (Remote)

- **MERN Stack:** Built scalable full-stack applications with MongoDB, Express, React, and Node.js.
- **Real-Time Features:** Implemented live communication and instant notifications via Socket IO and Supabase real-time feature.
- **APIs & Databases:** Developed secure RESTful APIs and managed MongoDB database operations.
- **Frontend Design:** Engineered responsive, interactive user interfaces using React and Tailwind CSS.
- **DevOps & Workflow:** Collaborated in Agile environments using Git for version control.

Education

Bachelor of Computer Applications (BCA), 2023 – 2026
Contai College of Learning & Management Science, West Bengal Contai, West Bengal
Current SGPA (Semester 1 to 5): 8.5

Higher Secondary Education, Ganeshwarpur D.H High School 2015 – 2023
Percentage: 78.2% Ganeshwarpur

Technical Skills

Frontend
Reactjs, JavaScript, HTML, CSS, Bootstrap, Tailwind,

Backend
Nodejs, Expressjs

Database
MongoDB, Mongoose, Mysql, supabase

Tools
Git, GitHub, Postman, Linux, Thunder Client, Socket.IO

Languages
JavaScript (ES6+), Python, Java, PHP, C

Projects

Tripzo - Travel Booking Platform (MERN), 08/2025 – 02/2026

- **Full-Stack Platform:** Engineered a travel booking app with real-time search, packages, and user management using Node.js, Express, and MongoDB.
- **Admin Controls:** Developed a secure panel for managing content and bookings, featuring JWT authentication and role-based access control.
- **UI & Integration:** Designed a responsive React/Vite interface integrating Cloudinary for image storage and automated email notifications.

BatChit - Full Stack Chat Application (MERN), 06/2025 - 08/2025

- **Real-Time Chat App:** Built a full-stack MERN application featuring live messaging and instant notifications via Socket IO.
- **Backend & Security:** Developed secure RESTful APIs with Node.js and Express, implementing robust JWT authentication workflows.
- **Frontend Design:** Engineered a responsive, highly intuitive user interface using React, Tailwind CSS, and DaisyUI components.
